

## **SAM v2.0**

This version of SAM includes some new features and corrects a few items as identified below.

### **What's new?**

1. You can now use your PDA assigned password for SAM.
2. Attach, review, edit or delete notes from SAM's main screen.
3. Cycle through your categories simply by Tapping on SAM's "category cyler" icon.
4. Find your accounts quickly and seamlessly using SAM's "Look up" feature.
5. Toolbars at the bottom of your screen make working with accounts faster and easier.

Please see the SAM documentation (SAM.pdf) for more information.

### **What's fixed?**

#### Palm OS 3.1 - 3.5

1. Corrected the problem where SAM was not retaining the application category it was assigned to (corrected in SAM v1.0.1).
2. Cut, Copy, Paste and Undo do not work using Palm's toolbar.

#### Palm OS 2.0 – 3.0.1

1. Corrected fatal error alert. This error was being produced when the user tried to backspace and no characters were present in the password field of the "security" and "forgot" screens (corrected in SAM v1.0.1).
2. "Fatal Error" occurs after adding an account

#### All versions

1. Added the graffiti shift indicator to all data entry screens.
